QUALITY
MARINE HARDWARE

Company Azienda

Seasmart is a leader in the design and manufacture of marine hardware and boating equipment, with a huge catalog of standard products and a production department to manufacture "custom" items for any requirements. Seasmart has established itself as a reliable partner for all those who look for innovative and functional solutions, with unique Italian style. The service we offer to our customers starts with the development of the project and ends with the manufacture of the object. All products are designed by our technical department and made entirely in Italy, mainly in-house. Seasmart: passion for the sea, quality for passion!

Seasmart è un'azienda leader nella progettazione e produzione di attrezzatura e accessori per la nautica, con un ampio catalogo di prodotti standard e un reparto per la produzione di prodotti "custom" in grado di soddisfare ogni richiesta di personalizzazione. Seasmart si è affermata come partner affidabile per tutti coloro che cercano soluzioni innovative, funzionali e con uno stile inconfondibilmente italiano. Il servizio che offriamo ai nostri clienti parte dallo sviluppo del progetto e termina con la realizzazione del prodotto. Tutti i prodotti vengono progettati dal nostro ufficio tecnico e realizzati interamente in Italia, per la maggior parte internamente all'azienda. Seasmart: passione per il mare, qualità per passione.

Scalette bagno

Straight swimming ladders with handles Scalette bagno con maniglioni dritte

design ing. Mirko Antonelli

The carbon swimming ladder is completely demountable and extendable via two-step modules (different configurations are available), has no metal parts and floats in water. The steps are made of carbon fiber with non-slip foam (EVA) that can be customized with a logo and are available in gray (standard) and teak. The storage bag is included. The bases (sold separately) are the same as the ST42 stanchions.

La scaletta bagno in carbonio è completamente smontabile ed allungabile tramite moduli a due gradini (è disponibile in diverse configurazioni), non ha parti metalliche e galleggia in acqua. I gradini sono realizzati in fibra di carbonio con foam antiscivolo (EVA) personalizzabili con un logo e disponibili nei colori grigio (standard) e teak. La custodia è inclusa. Le basi (vendute separatamente) sono le stesse dei candelieri ST42.
